Data sources: Midpeninsula Regional Open Space District map titled "Bear Creek - Sierra Azul Master Plan Study Area",
San Jose Water and Big Creek Lumber "Notice of Intent to Harvest Timber", (sent to local residents in August 2005).
Disclaimer: while this map represents our sincere and best effort to depict the logging proposal accurately, we were hindered by the
limited detail provided by SJW and BCL in the "Notice of Intent to Harvest Timber". We would appreciate it if SJW and Big Creek
Lumber would supply to us a digital copy of their logging map, which does exist, and which we requested in early August 2005.
